

Trader Clan MIXTAPE NFT (Project)

A creative bridge to connect two coexisting worlds of Web 3. Music and Art. There's a love that is present for both these elements of creation that powers and ignites the NFT space. So instead of fragmenting the two the Trader Clan MIXTAPE NFTs will be project that joins them together.

Composition

The project will consist of a collection of 13 songs arranged and organized by Good News Bas featuring 5 other dynamic artists and creators that will be revealed as the release of the project progresses.

Each Superhero character who appears on the musical body of work will also be coupled with a unique illustration design based on who the individual is IN REAL LIFE.

Trader Clan MIXTAPE NFT (Project)

Two Pillars

Structuring the project based on these two elements of creation will provide an opportunity for NFT collectors and music lovers to exist as one.

Trader Clan MIXTAPE NFT (Project)

MUSIC

So far along my journey as a rap artist in Web 3 and NFT collector I have observed the impact of musical empowerment through blockchain on a daily basis.

Trader Clan MIXTAPE NFT (Project)

Not only does releasing music backed by blockchain and CRYPTO provide a solid opportunity for music lovers to take full control of how they can become more intentional about how they support artists, it also gives music supporters more investing power and leverage to receive benefits for simply supporting music they enjoy.

MUSIC

Trader Clan MIXTAPE NFT (Project)

As Founder of this project with a background in graphic design I wanted to be as hands on as possible in regards to the character animation aspect without taking matters into my own hands too excessively.

Animation

Trader Clan MIXTAPE NFT (Project)

So instead of forcing an overwhelming workload on myself to create and organize the music and structure and community foundation for the project and creating the characters I enlisted my personal graphic designer for the creation of each member of the Trader Clan.

Animation

Trader Clan MIXTAPE NFT (Project)

Prior to the creation and idea of what the Trader Clan MIXTAPE NFTs are. Good News Bas had been working with a graphic designer in order to have animations illustrated of his (Superhero) BLACK GIZMO character which in fact happened to be the protagonist in a 2020 Visions (Ebook Saga) Good News Bas had began writing in 2020 during the quarantine.

Trader Clan MIXTAPE NFT (Project)

From the year 2020 to date Good News Bas and Matt Hendrixx Art had been working together coupling music releases with highly detailed illustrated artwork long before any Good News Bas content media had ever made it's way to the blockchain as NFTs. The work relationship between Founder and Graphic Designer is strong, consistent, and thriving.

Trader Clan Works

Matt Hendrix has illustrated and designed each character of the Trader Clan MIXTAPE and will also be designing the characters for a small spin off Trader Clan NFT collection called Gizmo Cart that will drop prior to MINT.

Trader Clan MIXTAPE NFT (Project)

The Trader Clan MIXTAPE NFTs will not go live on the blockchain until at least 250-500 WL spots have been given out to early supporters.

Building community and a ecosystem for this project to thrive in is first priority.

1000-1500 Trader Clan MIXTAPE NFTs will deploy to the blockchain.

Roadmap

Free Claim (Gizmo Cart Release)

Workshops NFT & WL Giveaways & Games
(Community Building)

Mint

Release Trader Clan (Ebook) (Free
for Holders)

Release Trader Clan (Comic) (Free for
Holders)

GOOD NEWS BAS

ALSO KNOWN AS BLACK GIZMO
Formely known as Abasi Qadhafi

Founder of Smwg Enterprises (Superhero Agency) as well as the author and creator of the "2020 Visions" Saga. Studio recorded album and ebook.

He released a song called Heikin Ashi as a NFT Nov. 2021 and created the foundation for what is now the Trader Clan. Similar to the Hidden Leaf Village.

Began his journey to become a profitable investor and trader early 2021. Studying stocks and binary options lead him to striving to develop his skill more as the year progressed. He took his first trade on the Forex Market Nov. 2021. Invested 1cent and profited 9 dollars. Once he saw the power and potential in allowing your money to work for you the rest was history. Since that day he has been determined to impact his community with this skill.
